

ADHAM EMAM

Full Stack Web Developer

+201128000832 • adhamh372002@gmail.com • adhamemam.pythonanywhere.com • Cairo, Egypt

Summary

A passionate full-stack web developer proficient in Python, helping develop efficient, maintainable code-be it web application development, data analysis, or automation of some sort. I love algorithms, data structures, and the principles of clean code-that is why I always enjoy turning complex problems into beautiful solutions. I'm collaborative, adaptive, and do great in dynamic teams to build high-impact software.

Skills

Front-End: HTML • CSS • JavaScript • React.js • Next.js • Node JS

Back-End: Python • Django • Django ORM • Flask • API Development

Database: SQL • NoSQL

Version Control: Git • Github

Soft Skills: Problem-Solving • Passionate • Self-Motivated • Fast Learner • Effective Communication

Experience

Cairo University, Student Council

Cairo, Egypt

Graphic Designer

12/2023 - 05/2024

- Designed promotional materials, including posters and social media graphics, showcasing creativity and attention to detail.
- Collaborated with team members to bring visual concepts to life, demonstrating effective communication and teamwork.

Personal Portfolio Website

Cairo, Egypt

Python Developer

06/2024 - Present

- Developed a personal portfolio website using Flask and React.JS to showcase my projects, skills, and achievements.
- Utilized a database SQLite to store project details and blog posts.
- Implemented a blog section for publishing technical articles and insights related to my work.
- Leveraged HTML, CSS, and Jinja templates to create an engaging and responsive user interface.
- Deployed the portfolio site to a web server for public access.

Forge

Cairo, Egypt

Full Stack Web Developer

08/2024 - Present

- Independently designed and developed an online, Web-based exchange of embers for freelance jobs redeemable in the real world for cash.
- Designed and implemented the high-end filtering algorithm to enhance user experience in skill discovery.
- Web Token-based authentication system to handle user session persistence and ensure data integrity.
- This project used React.js with Next.js for the frontend, while it had Django REST Framework on the backend.
- Integrated a robust payment system for seamless credits purchases.
- Conducted performance optimizations, addressing issues like Largest Contentful Paint (LCP) to significantly improve user experience.
- Created comprehensive documentation for future maintenance and feature enhancements.

Education

Cairo University

Cairo
